

Feature: Find out what time the next trains for my destination station leave

In order to plan my trips more effectively
As a commuter
I want to know the next trains going to my destination

Scenario: Find the optimal itinerary between stations on the same line		features/itineraries/find_next_train_departures.feature:7
Given Western line trains from Emu Plains leave Paramatta for Town Hall at 7:58, 8:00, 8:02, 8:11, 8:14, 8:21, 8:31, 8:36		features/itineraries/find_next_train_departures.feature:8
Undefined step: "Western line trains from Emu Plains leave Paramatta for Town Hall at 7:58, 8:00, 8:02, 8:11, 8:14, 8:21, 8:31, 8:36" (Cucumber::Undefined)		
features/itineraries/find_next_train_departures.feature:8:in `Given Western line trains from Emu Plains leave Paramatta for Town Hall at 7:58, 8:00, 8:02, 8:11, 8:14, 8:21, 8:31, 8:36'		
34	# Couldn't get snippet for features/itineraries/find_next_train_departures.feature:8:in `Given Western line trains from Emu Plains leave Paramatta for Town Hall at 7:58, 8:00, 8:02, 8:11, 8:14, 8:21, 8:31, 8:36'	
35	# gem install syntax to get syntax highlighting	
Given(/^Western line trains from Emu Plains leave Paramatta for Town Hall at (\d+):(\d+), (\d+):(\d+), (\d+):(\d+), (\d+):(\d+), (\d+):(\d+), (\d+):(\d+)\$/ do arg1, arg2, arg3, arg4, arg5, arg6, arg7, arg8 pending # express the regexp above with the code you wish you had end		
When I want to travel from Parramata to Town Hall at 8:00		features/itineraries/find_next_train_departures.feature:9
